PRESIDENT'S ADDRESS

The last two years have been challenging for us all and not in the least Blandford Forum Camera club. Sadly, we had to postpone our Exhibition for two years for obvious reasons, but we are back this year and looking forward to an excellent exhibition. We have as always members images and images from external photographers from our area which we always welcome. Prints and Digital Projected images will be on display.

The judge this year falls to a good friend of the club Amanda Miller LRPS, CPAGB, QGP who is well respected and a very proficient judge.

Over the last two years we have risen to the challenge and our club has continued, providing a full programme including talks and competitions over Zoom, it has enabled us to enjoy speakers from all over the UK and even abroad which has been a bonus. Our clubhouse activities like Studio group, Practical evenings and our Distinctions group had to be curtailed but we are now getting back to a new normal and enjoying the clubhouse once again.

If you feel that you would like to join us as a club, we would love to see you, we are a friendly bunch. Please talk to a member on the Entrance desk.

Thank you for supporting us and we hope you enjoy our Exhibition.

Marilyn Peddle LRPS, President

BLANDFORD FORUM CAMERA CLUB

BFCC was formed in 1950 and originally consisted of a small group of enthusiasts headed by David Gent, a local dentist.

Meetings were originally held in the back of a shop but as more people joined the group it was necessary to find larger premises. The club moved to an old Band room and, when numbers increased further, to a room at the rear of the Congregational Chapel. In 1969 it became necessary to move yet again and this time it was to an old Cadet Hut made available by the GPO.

In 1981 the land on which the hut was situated was sold and the club was forced yet again to find a new home and this time was offered a derelict, roofless stone building adjacent to the site of the old railway station. This building was formerly the base and pump house of the water tower which supplied water to the steam locomotives on the old Somerset and Dorset railway line.

Work commenced in February 1981, a roof was built over the four walls and windows were glazed and council permission was granted for an extension to be built after which the building included a meeting room, kitchen and toilet facilities.

In 2006 BFCC, with the help of donations and loans, became one of very few camera clubs in the UK to own its own clubhouse.

Are you interested in joining a camera club?

We still have a few vacancies for new members.

From September, we meet every Tuesday evening at 7.30pm sharp
in the Old Water Tower in Blandford.

Ask one of the members here today for more information or
